<b>CANDIDATE REFLECTIONS:</b>
<p><b>What did you learn about leadership from completing this field experience? How did this learning relate to the knowledge, skills and dispositions required of an educational leader? How did it enhance your ability to lead?</b></p> <p>I had to look at the data and create a plan of action to help steer my school in a positive direction to improving student achievement, so I had to use my leadership skills to find and help solve where my school needs to focus their attention.</p>
<p><b>Did (or could) this field experience impact student learning? If so, how?</b></p> <p>The entire field experience is about impacting student learning, by creating an action plan to help improve student achievement.</p>
<p><b>How could this field experience be modified to make it more meaningful and relevant to aspiring educational leaders?</b></p> <p>To modify this assignment, I would add room for explanations. It is important to understand how to create an action plan, but the plan will have to be explained before it can be implemented.</p>
