

Summary Parent Part 3 Survey

I am a

parent of a K-12 student.	3	100%
teacher of K-12 students.	0	0%

Based on today's experience, I prefer

top only navigation.	3	100%
side (left or right hand) only navigation.	0	0%
a combination of top and side navigation.	1	33%

People may select more than one checkbox, so percentages may add up to more than 100%.

Explain your answers above. Please be as specific as possible.

It is easier for me to find the navigation tools.top navigation has been my traditional experience. With any details located in side menus.I actually like top OR side, but not both together. If I had to choose, top is preferred.

Based on today's experience, I feel like my student(s) would best be able to navigate

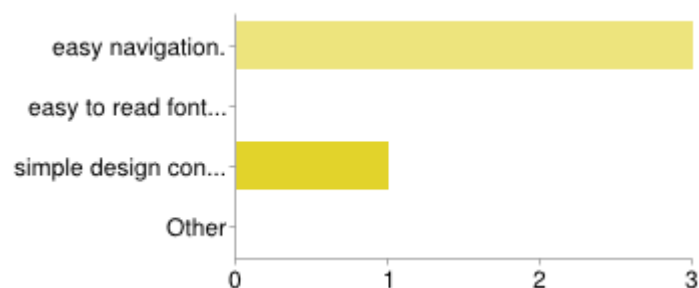

top only navigation.	2	67%
side (left or right hand) only navigation.	0	0%
a combination of top and side navigation.	1	33%

People may select more than one checkbox, so percentages may add up to more than 100%.

Explain your answers above. Please be as specific as possible.

You can provide more navigation tools and information when you use both the top and sides.this is closest to what she sees on the websites she uses most often.The important "stuff" is at the top--making it easy to find.

Based on today's experience, I feel like the most important aspect of functionality is

easy navigation.	3	100%
easy to read font and font size.	0	0%
simple design concept.	1	33%
Other	0	0%

People may select more than one checkbox, so percentages may add up to more than 100%.

Explain your answers above. Please be as specific as possible.

Navigation is the key to finding the information quickly.because the main goal of going to a classroom website is to find information you need.If the design is simple, it would have easy to read font and have easy navigation! To me, it is the meaning of "simple design."

Based on today's experience, please explain your final thoughts and perceptions of the classroom websites shown to you today. Please be as specific as possible.

Easy to read and navigate should be the key for students to use a website But, information should be limited and not crammed onto the screen.The ones with clear, simple, short navigation and those using calendars seem to be the ones easiest to use and find the information you seek.I don't like websites that are cluttery and have loads of different colors. Clean lines, simple navigation, less "earthy-grainy" is better. :)
